Education

Aug 2017 – Aug 2024*

📖 **Ph.D. in Computer Science (GPA: 3.8)**
Center for Research in Computer Vision (CRCV)
University of Central Florida, Orlando, Florida, USA
Advisor: Prof. Mubarak Shah

Aug 2013 – Aug 2016

📖 **M.Sc. in Intelligent Systems (GPA: 3.8)**
Technical University of Kaiserslautern, Kaiserslautern, Germany
Thesis title: *Violence Detection in Videos*.

Sep 2006 – Aug 2010

📖 **B.Tech. in Computer Science (GPA: 3.4)**
Jawaharlal Nehru Technological University, Hyderabad, India

Experience

Research

Aug 2017 – Current

📖 **Graduate Research Assistant at CRCV, UCF**

- Deep Intermodal Video Analytics (**DIVA**) program by IARPA: Worked on video activity detection. Performed data pre-processing of large-scale multi-label and multi-class dataset for model training. Developed models for actor localization and action classification in untrimmed video sequences. Achieved first place in ActEV SDL 2020 challenge (ActivityNet Challenge, CVPR-2020) and second position in TRECVID 2019 challenge.
- Gait Recognition by CTTSO: Worked on developing a Gait Recognition model using skeleton data and improved the performance of existing RGB-based models with feature fusion.
- Biometric Recognition and Identification at Altitude and Range (**BRIAR**) by IARPA: Contributed to the development of a person-identification model aimed at learning robust representations invariant to variations in the scale of individuals resulting from their distance from the camera. Worked on pre-processing of the training data and building the pipeline for inference and evaluation.

May 2023 – Aug 2023

📖 **Research Intern at Amazon Inc.**

- Worked on representation learning for long-form video understanding with vision-language training.
- Explored the idea of leveraging pre-trained Large Language Models (LLMs) to improve temporal understanding of video models.

May 2022 – Aug 2022

📖 **Research Intern at Pinterest Inc.**

- Worked on building a unified model for both image and video representation learning.
- Explored large-scale self-supervised training to learn representations for multiple visual modalities.
- Obtained improved performance over the in-house image-based model using the multi-modal training.

Jan 2016 – Aug 2016

📖 **Master Thesis Student at German Research Center for AI (DFKI)**

- Focused on detecting various types of violent activities from videos using visual, semantic and audio features.
- Trained SVM classifiers on each modality and employed late-fusion to detect videos with violence.

*Expected

Experience (continued)

Software Development

Oct 2016 – July 2017  **Java Developer at XYRALITY GmbH**, Hamburg, Germany

- Worked on developing multi-player strategy games.
- Focused on back-end development working with Wonder frameworks and Web Objects.

Aug 2010 – Aug 2013  **Software Engineer at Progress Software**, Hyderabad, India

- Java and web development involving implementation of various features and bug fixing.
- Built POC for a new use-case involving integration of existing products and received the best employee award for my efforts.

Patents

- 1 Y. S. Rawat, M. Shah, A. J. B. Rana, **P. Tirupattur**, and M. N. Rizve, *Methods of real-time spatio-temporal activity detection and categorization from untrimmed video segments*, US Patent 11,468,676, Oct. 2022.

Skills

| | |
|--------------------------|---|
| Programming |  Python, Java, C++ |
| Deep learning frameworks |  PyTorch, Keras, Tensorflow |
| Tools/Frameworks |  OpenCV, Sci-kit, MATLAB |
| Languages |  English, Telugu, Hindi, German (B1) |

Awards and Achievements

- 2022  2nd place, ActivityNet ActEV Challenge (CVPR)
- 2021  1st place, ActivityNet ActEV SDL (CVPR)
- 2020  1st place, ActivityNet ActEV SDL (CVPR)
 -  2nd place, TRECVID ActEV: Activities in Extended Video
 -  Best Paper Award at ICPR
 -  Won ASAPS Challenge, Contest-1 (NIST)
- 2019  2nd place TRECVID ActEV: Activities in Extended Video
- 2017  Awarded UCF ORC Doctoral Fellowship

Professional Activities

-  Organized TinyAction ActivityNet Challenge (CVPR 2021, 2022)
-  Mentored students of NSF Research Experience for Undergrad (REU) 2020, 2021 & 2022
-  Reviewer for CVPR, ICCV, ECCV, CVIP, ACM-MM, IEEE Transaction on Multimedia, Machine Vision and Applications, etc.
